

Fruit and Vegetable Juice Extractor

This kitchen appliance is designed for extracting juice from various fruits and vegetables. It features a stainless steel finish, a transparent feeding chute, and a separate container for pulp collection.

Product Overview

Professional Juice Extraction

This high-performance juice extractor is designed for efficient processing of a wide variety of fruits and vegetables. Featuring a robust stainless steel finish and a stable base, it ensures durability and reliability in demanding environments. The integrated feeding chute and pulp management system streamline the juicing process, making it an ideal solution for commercial or heavy-duty home use.
