

Fruit and Vegetable Juice Extractor with Variable Speed Control

This juice extractor is designed for efficient juice extraction from fruits and vegetables. It features a clear, graduated pitcher for easy measurement and monitoring of juice output.

Product Overview

Efficient Juice Extraction

This versatile juice extractor is designed for efficient processing of fresh fruits and vegetables. It features a durable stainless steel blade system and a clear, graduated pitcher for precise measurement. With variable speed settings and pulse rotation, it provides the flexibility needed to handle various produce textures while maintaining a low-noise operation.

Technical Specifications

Power Rating
