

FTP CAT6/CAT6A Shielded Patch Cord

FTP CAT6/CAT6A patch cords are designed for reliable data transmission in networking applications. They feature shielded RJ45 connectors for reduced interference and enhanced signal integrity, making them suitable for Gigabit Ethernet and other high-speed protocols.

Product Overview

High-Performance Shielded Connectivity

This FTP CAT6/CAT6A patch cord is engineered for reliable, high-speed data transmission in professional networking environments. Featuring foiled twisted pair shielding, it effectively minimizes electromagnetic interference to ensure signal integrity for Gigabit Ethernet and demanding applications. The cable is constructed with durable materials and is available in customizable lengths and jacket types to suit diverse infrastructure requirements.

Technical Specifications

Cable Type	FTP (Foiled Twisted Pair) CAT6/CAT6A
Wire Gauge	24AWG / 26AWG
Conductor Material	Copper or CCA (Copper Clad Aluminum)
Jacket Material	PVC or LSZH
Available Lengths	0.5m to 30m
Performance Testing	Yes

Compliance & Quality

Certifications	RoHS, ISO 9001:2000, ISO 14000, CE, UL
----------------	--

Logistics & Customization

Packaging

- 1PC/PE Bag
- OEM Bag
