

Fuel Dispenser 90-150 L/min

This fuel dispenser has a flow rate range of 90-150L/min. It includes a meter, pump, ex-proof motor, hose, and automatic nozzle.

Overview

Industrial Fuel Dispensing Unit

This robust fuel dispensing unit is engineered for efficient and accurate fuel management in commercial and industrial settings. It supports high-volume flow rates ranging from 90 to 250 L/min, ensuring rapid refueling operations. Equipped with reliable metering and pumping systems, this unit is designed for durability and consistent performance in demanding environments.

Performance Specifications

Flow Rate Options	90-150 L/min, 150-250 L/min
Compatible Meters	SM-50-1, M-40-1
Compatible Pumps	SUB-40, SUB-50

Technical Details

Explosion-Proof Motor

1.5 KW Power Output	380 V Voltage	50 Hz Frequency
-------------------------------	-------------------------	---------------------------

Hose and Nozzle Configuration

Component	Specification
Hose Size	1.5 inch
Hose Length	6 meters
Automatic Nozzle	MD-200
