

Fuel Dispenser Unit with Electronic Display

This fuel dispenser unit is commonly found at gas stations. The unit features an electronic display showing fuel sale, liter, and price.

Product Overview

Professional Fuel Dispensing Solution

This fuel dispenser unit is engineered for reliable commercial use at gas stations and fleet fueling sites. It features an integrated electronic display that provides real-time tracking of sale amounts, volume in liters, and current pricing. Designed for efficiency and accuracy, this unit is a standard choice for high-traffic environments requiring precise fuel distribution.
