

Fuel Dispenser Unit

This is a fuel dispenser unit. It features a display for sale, liter, and price information.

Product Overview

Industrial Fuel Dispenser

This fuel dispenser unit is engineered for precision and reliability in professional fueling environments. It features a clear, integrated display system that provides real-time visibility into sale amounts, volume in liters, and current pricing. Designed for efficiency, the unit includes a standard fuel nozzle and a durable chassis suitable for high-frequency usage in commercial settings.
