

Fuel Dispenser with Electronic Control and High-Precision Flow Meter

This fuel dispenser features an electronic control system for safety and stability. Its high-precision flow meter is designed for outstanding performance and a long lifecycle.

Product Overview

Industrial Grade Fuel Dispensing

This fuel dispenser offers high-precision measurement and long-term reliability for commercial and industrial applications. Built to withstand extreme environmental conditions, it features an advanced electronic control system, a high-precision flow meter, and a user-friendly interface with voice broadcast capabilities. Its robust construction ensures consistent performance and secure, accurate transactions across a wide range of temperatures.

Performance Metrics

Featured Metrics

0.25 %

Accuracy

80 dB(A)

Noise Level

54 KPA

Intake Vacuum

Operating Temperature Range

-40°C to +55°C

Configuration

	Pump Type	Nozzle	Oil Product	Display	Flow Rate (L/Min)	
1H 1P	Gear Pump	1	1	1	5-50	8-80
1H 1P	Submersible Pump	1	1	1	5-50	8-80
Net Size:550*410*1350mm(L*W*H)			Package Size:665*490*1430mm (L*W*H)			

Available pump configurations and technical dimensions

Model Configurations

Pump Type	Flow Rate (L/Min)	Nozzles
Gear Pump	5-50 / 8-80	1
Submersible Pump	5-50 / 8-80	1

Technical Specifications

Motor Output Power

- 750W
- 1000W

Power Supply

AC380V or AC220V (-15% to +10%)

Key Features

Built-in Capabilities

Intelligent Voice Broadcast, Printer Bill System, Adjustable Display, POS Smart Upgrade, Waterproof & Dustproof
