

Fuel Dispensing Nozzle

Fuel nozzles designed for use in gas stations and other fuel dispensing applications. These nozzles feature a robust construction for durability and reliable performance.

Product Overview

Professional Fuel Dispensing Solutions

These fuel dispensing nozzles are engineered for reliability and durability in high-demand gas station and commercial fueling environments. Featuring an ergonomic design for comfortable handling, they ensure ease of use during repetitive operations. The robust construction supports consistent performance across various fuel types, making them an ideal choice for both commercial and private fueling stations.

Technical Specifications

Available Models

- U303-A
- U303-B
- U303-C
- U303-D

Construction

Robust Design • Heavy Duty

Compatible Fuels

Gasoline, Diesel

Usage

Ideal Applications

- Gas Stations
- Commercial Fueling
- Private Fueling Stations
