

Fuel Injection Nozzle DLL150S6556

This fuel injection nozzle is designed for optimal engine performance through efficient fuel atomization and delivery. Constructed from durable materials, the DLL150S6556 model ensures long-lasting reliability in demanding engine environments.

Product Overview

High-Performance Fuel Injection Nozzle

This high-precision fuel injection nozzle is engineered for optimal engine performance and reliability. Designed to ensure efficient fuel atomization and delivery, it contributes to improved combustion efficiency and helps reduce engine emissions. Built from durable steel, this component is suitable for demanding engine environments and is compatible with various auto engine systems.

Technical Specifications

Body Material	Steel
Weight	0.04 kg
Fuel Compatibility	Diesel
Cylinder Configuration	Multi-cylinder
Carburettor Type	Downdraft
Stroke	Standard

Compliance & Logistics

Certifications	ISO9001, TS16949
Warranty	6 Months
HS Code	84099199
