

Fuel Injection Nozzle DN20PD32

This fuel injection nozzle is a precision-engineered component for optimal engine performance. The DN20PD32 nozzle ensures efficient fuel atomization and delivery, contributing to improved combustion and reduced emissions.

Overview

High-Precision Fuel Injection Nozzle

The DN20PD32 is a precision-engineered fuel system component designed for optimal diesel engine performance. It ensures efficient fuel atomization and delivery, contributing to improved combustion and reduced emissions. Manufactured with high-quality steel, this nozzle offers the durability and reliability required for demanding multi-cylinder engine applications.

Technical Specifications

Fuel Type

Diesel

Body Material

Steel

Cylinder Type

Multi-cylinder

Stroke

Standard

Carburettor Type

Downdraft

Physical Properties

Weight

0.04 kg

Net Weight

Quality & Compliance

Certifications

ISO9001, TS16949, ISO9001: 2008

Warranty

6 Months

Logistics

Transport Package

Diversified Neutral Packing

HS Code

84099199

Reference Data

Reference No. & Stumping Guide

Item Type	Reference No.	Stumping No.
Injector Nozzle DN_PDN	105007-1120	DN0PDN112
Injector Nozzle DN_PDN	093400-8220	DN0PDN121
Injector Nozzle DN_PD	093400-5571	DN4PD57
Injector Nozzle P	093400-5500	DLLA160P50
Injector Nozzle DN_SD	0 434 250 063	DN0SD193
Injector Nozzle S	0 433 271 376	DLLA149S774
