

Fuel Injector 326-4700

This fuel injector is designed for use in auto engine systems. It delivers the correct amount of fuel to the combustion chamber at the precise time.

Product Overview

High-Performance Fuel Injection

This fuel injector is a critical component engineered for precise fuel delivery to the combustion chamber. Designed to optimize engine performance, fuel efficiency, and emissions control, it utilizes advanced spray technology for superior fuel atomization. Each unit is precision-machined to meet stringent quality standards, ensuring reliable operation and durability in demanding engine applications.

Part Number	326-4700
Country of Origin	United States
Sales Unit	1 PC

Features

Key Features

Precision-machined • Advanced atomization • Emissions control • High durability
