

Fuel Injector Cleaning Additive

This concentrated cleaner eliminates engine deposits and improves fuel economy. It dissolves gum, varnish, and carbon deposits, ensuring optimal injector performance and fuel release.

Product Overview

High-Performance Fuel Injector Cleaner

This concentrated fuel injector cleaning additive is engineered to restore engine efficiency by eliminating harmful deposits. The formula effectively dissolves gum, varnish, and carbon buildup, ensuring optimal fuel spray patterns and improved fuel economy. Designed for professional maintenance, it helps maintain peak engine performance across a wide range of vehicle types.

Technical Specifications

Volume (Metric)	354 ml
Volume (Imperial)	12 fl oz
Model Reference	M-4436

Performance Features

Primary Benefits

- Eliminates engine deposits
- Dissolves gum and varnish
- Removes carbon buildup
- Improves fuel economy
- Ensures optimal injector performance

Safety & Handling

Safety Information

Combustible • Vapor Irritant
