

Fuel Injector for Carter C7 Engine

This fuel injector is designed for Carter C7 engines. It ensures optimal fuel delivery and combustion efficiency.

ADDITIONAL IMAGES

Product Overview

Precision-engineered fuel injector featuring a 6-hole nozzle for optimal atomization.

High-Performance Fuel Injection

This fuel injector is a precision-engineered component designed specifically for the Carter C7 engine. It features a robust 6-hole nozzle design that ensures optimal fuel atomization and delivery for enhanced combustion efficiency. Built to withstand demanding heavy-duty environments, this unit is essential for maintaining engine performance, reducing emissions, and improving fuel economy in construction machinery.

Technical Specifications

Internal Components

- Slide valve
- Solenoid valve

Part Number	238-8901
Nozzle Hole Count	6
Construction Material	Steel

Logistics and Trade

Shipping Options	DHL, FedEx, UPS, TNT, EMS, ARAMEX, Air Freight
Accepted Payment Methods	T/T, Western Union, MoneyGram, PayPal
Available Markets	South America, North America, Europe, Mid East, Africa, Asia, Australia
