Product Overview

High-Performance Diesel Fuel Injector

This high-pressure fuel injector is engineered specifically for Foton Cummins ISF2.8 diesel engines. Designed to ensure precise fuel delivery, it promotes optimal combustion, enhancing both engine performance and overall fuel efficiency. Built with durable metal and copper components, this unit is constructed to withstand the high pressures and temperatures of demanding operating environments.

Technical Specifications

Part Number	5347134
Compatible Engines	Foton Cummins ISF2.8
Materials	Metal and Copper
System	Fuel System

Physical Dimensions

Dimensions

280 mm

Length

90 mm

Width

60 mm

Height

Weight

0.5 kg

Logistics & Warranty

Quality Grade

Original

Shipping Options

- By sea
- By air
- By express

Warranty Period

12 months

Packaging

1 piece per box
