

Fuel Injector for Peugeot 405

This fuel injector is designed for Peugeot 405 vehicles. It delivers precise fuel atomization for optimal engine performance, ensuring efficient combustion and contributing to improved fuel economy and reduced emissions.

Product Overview

Precision Fuel Injection

This fuel injector is engineered specifically for Peugeot 405 vehicles, ensuring precise fuel atomization for optimal engine performance. Designed for efficient combustion, this component contributes directly to improved fuel economy and reduced vehicle emissions. As a new (SLC) unit, it provides a reliable replacement solution for maintaining engine health and power delivery.

Technical Details

Part Number	01F026
Alternate/Reference Codes	HK-EFI097, 026

Compatibility

Compatible Make	Peugeot
Compatible Model	405

Product Status

Condition
New • SLC
