

Fuel Injector Nozzle

This fuel injector nozzle is designed for optimal fuel atomization and combustion efficiency. It is manufactured with premium materials to ensure durability and a long service life.

Overview

High-Performance Diesel Fuel Injector Nozzle

This high-precision fuel injector nozzle is engineered for optimal fuel atomization and superior combustion efficiency in diesel engines. Constructed from durable, high-grade steel, it is designed to meet rigorous industry standards, ensuring longevity and reliable performance. Suitable for a wide range of multi-cylinder applications, this component is rigorously tested for spray pattern accuracy and leak-proof operation.

General Specifications

Body Material	Steel
Fuel Compatibility	Diesel
Certifications	ISO9001, TS16949
Warranty Period	6 Months

Technical Details

Unit Weight

0.04 kg

Weight

Cylinder Type	Multi-cylinder
Carburettor Type	Downdraft
Stroke	Standard

Compatibility Reference
