

Fuel Octane Booster

This product improves performance and removes carbon deposits. It maximizes power, reduces engine knocking and pre-ignition, and helps fuel burn cleaner.

Product Overview

High-Performance Fuel Octane Booster

This fuel octane booster is engineered to enhance engine performance across a wide range of applications. It effectively removes carbon deposits, maximizes power output, and helps mitigate engine knocking and pre-ignition issues. By promoting cleaner fuel combustion, this additive ensures smoother operation for all two-cycle and four-cycle gasoline engines.

Performance Features

Key Benefits

- Improves overall engine performance
- Removes harmful carbon deposits
- Maximizes power output
- Reduces engine knocking
- Prevents pre-ignition
- Promotes cleaner fuel combustion

Compatibility

Engine Compatibility

Two-cycle engines, Four-cycle engines, Gasoline engines

Product Identification

Model Number

M-4439
