Product Overview

Professional Drum Mounting Solution

This drum mounting bracket is designed for secure, stable installation of air-operated fuel and oil pumps. Featuring a robust clamp cradle holder, it ensures proper alignment and minimizes vibration during operation in demanding industrial environments. The inclusion of a height-adjustable 2" BSP bung adaptor simplifies installation, making it an essential component for workshops, service stations, and fleet maintenance facilities.

Technical Specifications

Tube Diameter	49 mm
Clamp/Cradle Diameter	60 mm
Bung Adaptor Size	2" BSP
Compatible Pump Ratio	1:1 and 3:1

Compatibility & Usage

Typical Applications

- Workshops
- Service stations
- Fleet maintenance
- Mining
- Agriculture
- Armed forces
- Construction
- Trains

Compatible Model Numbers	70910030, 70910034, 70910049
