

Fuel Transfer Pump

This pump is designed for gasoline and gas transfer applications. It features a durable motor with a protective housing, integrated carrying handle, and a sturdy base for secure mounting.

Product Overview

Professional Fuel Transfer Solution

This robust fuel transfer pump is engineered specifically for reliable gasoline and gas transfer applications. Featuring a durable motor housed in a protective casing, it ensures longevity and consistent performance in demanding industrial environments. The design includes an integrated carrying handle for portability and a sturdy base for secure, stable mounting during operation.

Technical Specifications

Design Features

- Protective motor housing
- Integrated carrying handle
- Sturdy mounting base
- Standardized inlet and outlet ports

Performance Focus

High Efficiency • Industrial Grade • Reliable Operation

Suitable Media

Gasoline, Gas
