Product Overview

Precision SMT Pick and Place Nozzles

These high-quality replacement nozzles are designed for use with high-speed surface mount technology placement systems. Engineered for durability and precise component handling, they are available in various tip types including diamond, ceramic, and rubber pad versions to accommodate diverse assembly requirements. These components are essential for maintaining accurate, consistent, and reliable pick-and-place performance in automated electronic manufacturing lines.

Compatibility & Features

Tip Material Variants

Diamond • Ceramic • Rubber Pad

Compatible Head Types

H04, H08, H12

Nozzle Specifications

Available Nozzle Configurations

Part Number	Head Type	Size	Notes
AA056	H08/H12	0.4mm	-
AA057D	H08/H12	0.7mm	Diamond Tip
AA057C	H08/H12	0.7mm	Ceramic Tip
AA058D	H08/H12	1.0mm	Diamond Tip
AA058C	H08/H12	1.0mm	Ceramic Tip
AA20AD	H08/H12	1.3mm	Diamond Tip
AA20AC	H08/H12	1.3mm	Ceramic Tip
AA064	H08/H12	1.3mm	MELF
AA20B	H08/H12	1.8mm	-
AA20C	H08/H12	2.5mm	-
AA20D	H08/H12	3.75mm	-
AA06W	H04	1.3mm	Diamond Tip
AA06XD	H04	1.3mm	Diamond Tip
AA06XDC	H04	1.3mm	Diamond Coated
AA06Y	H04	1.8mm	-
AA07A	H04	3.75mm	-
AA07F	H04	2.5mm	Rubber Pad
AA07G	H04	3.75mm	Rubber Pad
AA07H	H04	5.0mm	Rubber Pad
