

Full Body Riot Control Armor

This full body riot control armor is designed for comprehensive protection. It features high-impact resistant materials and adjustable straps for a secure, comfortable fit.

Overview

Professional Riot Control Protection

This full body riot control armor is engineered for maximum protection and mobility in high-stakes environments. It features comprehensive coverage including a helmet with face shield, chest, back, arm, thigh, and leg protection, all constructed from high-impact resistant materials. Designed for law enforcement and security personnel, the system utilizes adjustable straps to ensure a secure and comfortable fit during crowd control operations.
