

Full Body Safety Harness with Energy Absorbing Lanyard

This full body safety harness features adjustable straps for a secure and comfortable fit. The energy-absorbing lanyard includes a double-locking snap hook and limits impact force during a fall.

Overview

Professional Fall Protection System

This full body safety harness kit is designed for high-risk industrial environments requiring reliable fall arrest solutions. It features a five-point adjustable harness for a customized, secure fit and an integrated energy-absorbing lanyard to effectively mitigate impact forces during a fall. Built with high-strength polyester and corrosion-resistant hardware, this kit ensures user safety and long-term durability on construction sites.
