

Full HD Video Conference Camera

This full HD 2.07MP camera provides three outputs and utilizes a 1/2.7-inch high-quality HD CMOS sensor. With up to 255 presets, remote control, and reverse installation support, it is suited for video conferencing, distance education, and enterprise training.

Overview

Professional HD Conferencing Solution

This high-performance Full HD video conferencing camera is designed for seamless remote collaboration and communication. Featuring a 1/2.7 inch high-quality sensor, it delivers crisp 1920x1080 resolution at 60fps, ensuring clear video for distance education and telemedicine. Equipped with advanced noise reduction and silent PTZ control, the system is built for reliable, professional-grade performance in any conference or training environment.

Optical Performance

Optical Zoom	12 X
Field of View	72.5 degrees
Focus Technology	Advanced auto-focus algorithm

Video Specifications

Maximum Resolution	1920x1080
Frame Rate	60 fps
Output Interfaces	3G-SDI, HDMI, IP Network

Control & Integration

Control Protocols

- VISCA
- PELCO-D
- PELCO-P

Preset Capacity	255
PTZ Movement	Super silent, rapid, and smooth
