

Full HD Video Conference Room Terminal

This video conference room terminal provides full HD 1080p video and strong network adaptability using H.265 video codec technology. It is suitable for small and medium meeting rooms and can be placed on a table or above a TV.

Product Overview

Professional HD Conferencing

This Full HD video conference room terminal utilizes advanced H.265 codec technology to deliver smooth, 1080p high-definition video. Featuring a modular design for flexible deployment, it integrates seamlessly with professional HD cameras and microphones. Built-in AI features and robust network adaptive algorithms ensure reliable, high-quality communication even in challenging internet conditions.

Technical Performance

Network Adaptation

- Packet Loss Compensation
- FEC
- QoS Adaptive Algorithm

Max Resolution	1080p Full HD
Video Codec	H.265
AI Capabilities	Voice Control, Participant Identity Recognition, Automatic Check-in, Quantity Statistics

Audio & Visual

Voice Pick-up Range

12 m

Pick-up Range

Connectivity

AV Connections

- Dual HDMI Outputs
- USB Camera Support
- Digital Microphone Ports

Wireless Collaboration	Yes
------------------------	-----

Deployment

Deployment Options

Tabletop • Wall Mount • Display Mount
