

Full Size LED Emergency Vehicle Lightbar

This full-size lightbar is designed for emergency and security vehicles. It features high-intensity LED modules and a durable aluminum alloy construction.

Product Overview

High-Performance Emergency Lighting

The LTF8800A is a professional-grade full-size lightbar engineered for emergency and security applications. Designed with durability and high-intensity LED modules, it ensures optimal visibility in critical situations. Its aerodynamic profile effectively minimizes wind resistance and noise, making it an ideal choice for police cars, fire trucks, and ambulances.

Technical Specifications

Design Advantages

- Aerodynamic profile
- High-intensity LED modules
- Reduced wind noise
- Durable construction

Customization

Multiple Flash Patterns • Various Color Options

Model Number	LTF8800A
Common Applications	Police Vehicles, Fire Trucks, Ambulances, Security Vehicles
