

Full Suspension Mountain Bicycle

This mountain bicycle features full suspension for enhanced shock absorption and control on rugged terrain. It is equipped with knobby tires for superior grip and a multi-speed drivetrain for versatile riding.

Overview

High-Performance Mountain Bicycle

The SX2658 is a robust full-suspension mountain bicycle designed for versatility and durability on challenging terrains. Featuring both front and rear suspension systems, it offers superior shock absorption to ensure a smooth ride over uneven surfaces. Equipped with a reliable multi-speed drivetrain and responsive braking, this model is engineered to provide both control and comfort for extended cycling sessions.
