

Full Suspension Mountain Bicycle

This full suspension mountain bicycle has a lightweight alloy frame and 21-speed Shimano drivetrain. It is equipped with disc brakes and knobby tires, suitable for off-road adventures.

Product Overview

High-Performance All-Terrain Bicycle

This full suspension mountain bicycle is engineered for versatility and control on challenging trails. Featuring a lightweight alloy frame and a robust 21-speed Shimano drivetrain, it provides efficient power transfer and smooth gear transitions. The integrated adjustable suspension system and front and rear disc brakes ensure a comfortable ride and reliable stopping power in diverse off-road conditions.
