

Full Suspension Mountain Bike

This mountain bike features full suspension for enhanced trail performance. It is equipped with disc brakes and knobby tires for reliable stopping power and optimal grip.

Overview

About the Full Suspension Mountain Bike

This full suspension mountain bike is engineered for rugged off-road performance and recreational trail riding. It features a robust frame design complemented by both a front suspension fork and a rear shock absorber to ensure a smooth ride over uneven terrain. Equipped with reliable disc brakes and high-traction knobby tires, this bike is built to provide stability, safety, and control on diverse outdoor paths.
