Overview

Heavy-Duty Furniture Moving Solution

This furniture moving dolly is designed to streamline the transport of heavy items in home, office, and warehouse environments. Featuring a high-density fiberboard (HDF) platform and a non-slip mesh surface, it ensures loads remain secure during transit. The four smooth-rolling swivel casters provide excellent maneuverability, making it easy to navigate through tight spaces with loads up to 200kg.

Key Performance

Load Capacity

200 kg

Maximum Load
