

FV Series Conveyor Chain

This FV Series conveyor chain is designed for efficient and reliable material handling. It is suitable for a variety of industrial applications requiring robust chain systems.

Product Overview

FV Series Conveyor Chains

The FV series conveyor chains are designed for high-performance industrial material handling applications. These chains are engineered with high-strength materials to provide reliable operation in demanding conveyor environments. Built to international quality standards, they deliver excellent durability, energy efficiency, and consistent performance for various automated conveying systems.

Certifications & Quality

Certifications

ISO 9001, ISO 14001, ISO 16969, API, AAA

Operational Capabilities

Annual Production Capacity

20000000 meters

Annual Capacity

Technical Specifications

Available Chain Types

- FV Series Conveyor Chain
- Standard Roller Chains
- A/B Series Chains
- Driving Chains
- Dragging Chains
- Agricultural Chains
- Stainless Steel Chains
