

FV Series Conveyor Chain

This FV Series conveyor chain is designed for efficient and reliable material handling. It is suitable for a variety of industrial applications requiring robust and durable chain systems.

Product Overview

High-Performance Conveyor Solutions

The FV series conveyor chains are precision-engineered for demanding industrial material handling applications. These chains offer high strength and durability, designed to meet rigorous international standards for reliability. Ideal for various conveyor systems, they provide consistent performance in both standard and specialized industrial environments.

Technical Specifications

Compatible Chain Types

- Standard chains
- Roller chains
- Conveyor chains
- Driving chains
- Dragging chains
- Agricultural chains
- Stainless steel chains

Annual Production Capacity

20000000 meters

Certifications and Compliance

Quality Standards

ISO9001, ISO14001, ISO16969, AAA, API
