

FX-1R Timing Belt

This timing belt ensures synchronized motion in FX-1R machinery. It provides reliable power transmission for automated industrial equipment.

Product Overview

High-Precision Timing Belt

This high-precision timing belt is specifically engineered for use in industrial automated machinery, specifically the FX-1R series. It is designed to ensure synchronized motion and reliable power transmission during operation. Each unit is supplied in a standard packaging quantity of 30 pieces, making it suitable for maintenance and inventory replenishment.

Product Details

Part Number	L150E821000
Packaging Quantity	30 pcs

Compatibility

Compatible Machine Series	FX-1R
