Product Overview

High-Performance G80 Rotary Safety Hook

This G80 European rotary safety hook is a professional-grade lifting component engineered for demanding industrial and agricultural applications. Constructed from high-strength, heat-treated alloy steel, it offers an exceptional strength-to-weight ratio for reliable rigging operations. The integrated 360-degree swivel mechanism prevents rope or chain twisting, while the heavy-duty safety latch ensures secure load attachment, minimizing the risk of disengagement.

Key Features

Grade 80 Alloy Steel, 360-Degree Swivel, Corrosion-Resistant Finish, Safety Latch Included, Heat-Treated

Technical Specifications

Technical Parameters Table

Size	Weight (kg)	W.L.L (t)	B.L.L
6-8	0.7	1.2	4.8
7/8-8	1.21	2	8
10-8	2	3.2	12.8
13-8	3.5	5.3	21.2
16-8	7.1	8	32
18/20-8	12	12.5	50
