Product Overview

High-Performance Lifting Security

The G80 European Type Clevis Self-Locking Hook is engineered for demanding industrial and construction lifting applications. Constructed from forged alloy steel that has been quenched and tempered, this component offers exceptional durability and reliability under load. Its integrated self-locking mechanism ensures that the load remains securely engaged, significantly reducing the risk of accidental disconnections during operation.

Technical Specifications

Construction Material	Forged Alloy Steel
Surface Finish	Powder Plastified
Available Colors	Red, Yellow

Safety & Compliance

Safety Metrics

2.5 x WLL
Proof Test Load

4 x WLL
Ultimate Load

Quality Assurance

- Individually proof tested
- 100% magnaflux crack detection
- Suitable for EN818-2 G80 chain
