Overview

High-Tensile Galvanized Barbed Wire

This high-tensile barbed wire is engineered for superior perimeter security and long-lasting performance. Constructed from galvanized steel, it offers exceptional resistance to corrosion, making it suitable for demanding agricultural, industrial, and residential environments. Featuring sharp, securely twisted barbs at regular intervals, this wire provides an effective and durable barrier solution for your fencing needs.

Technical Specifications

Material	Galvanized Steel
Corrosion Resistant	Yes
Wire Type	High-Tensile
Barb Configuration	Twisted strand with sharp barbs

Application & Usage

Recommended Uses	Agricultural Fencing, Industrial Security, Residential Perimeter, Barrier Protection
------------------	--

Customization Options

Available Variants

- Various wire gauges
- Multiple roll lengths
