

Galvanized Hexagonal Poultry Netting

This hexagonal wire mesh is designed for poultry enclosures and garden fencing. Constructed from galvanized steel, it provides secure containment for chickens and other small animals while ensuring proper ventilation.

Product Overview

Versatile Hexagonal Poultry Netting

This galvanized hexagonal wire mesh, commonly known as chicken wire, is a highly versatile fencing solution designed for poultry enclosures, garden protection, and various industrial applications. Constructed with durable galvanized steel, it offers excellent rust resistance and long-lasting performance in both indoor and outdoor environments. The mesh is available in a wide range of aperture sizes and wire gauges, making it suitable for everything from small animal containment to heavy-duty security fencing.

Technical Specifications

Mesh Size & Specifications

Mesh Size (inch)	Wire Gauge (BWG)	Wire Diameter (mm)	Width (m)
3/8"	27-23	0.40-0.60	0.1-1.2
1/2"	28-21	0.36-0.80	0.1-2.0
5/8"	28-21	0.36-0.80	0.1-1.2
3/4"	28-18	0.36-1.20	0.1-2.0
1"	25-18	0.50-1.20	0.1-2.4
1-1/4"	25-17	0.50-1.30	0.1-2.4
1-1/2"	25-16	0.50-1.55	0.1-2.4
2"	25-16	0.50-1.60	0.1-2.4
3"	22-16	0.70-1.60	0.1-2.4
4"	19-13	1.0-2.2	0.1-2.4

Edge Configuration

Single wire edge, Double wire edge

Manufacturing & Quality

Surface Treatment Options

- Weaving after electrical galvanizing
- Weaving after hot-dip galvanizing
- Weaving before hot-dip galvanizing
- Stainless steel 430
- Stainless steel 304

Logistics & Packing

Packaging

Packed with waterproof paper or shrink wrapped; typically shipped in 20' containers.

Applications

Common Applications

Poultry Farming • Zoo Fencing • Machinery Protection • Speedway Fencing • Stadium Netting • Roadway Protection • Marine Fish Farming
