Overview

Corrosion-Resistant Material Handling

This heavy-duty pallet jack is engineered for demanding industrial environments where hygiene and corrosion resistance are critical. Featuring a specialized galvanized finish, it is perfectly suited for meat, seafood, dairy, and pharmaceutical manufacturing facilities. The robust hydraulic system ensures reliable lifting performance for heavy loads, while the ergonomic design helps reduce operator fatigue during daily operations.

Performance

Load Capacity

3000 kg

Max Capacity

Handling Features

- Robust hydraulic system
- Smooth lifting and lowering
- Ergonomic handle design
- High-durability wheels

Construction

Industry Suitability

Meat Processing • Seafood • Dairy • Pharmaceutical

Surface Finish

Hot dip Galvanized, Zinc plated
