

Galvanized Pallet Truck

This hand pallet truck features a robust galvanized finish for enhanced corrosion resistance. It is ideal for moving pallets and heavy loads in warehouses, factories, and distribution centers.

Product Overview

Professional Galvanized Pallet Truck

This galvanized pallet truck is expertly engineered in Vietnam to provide exceptional reliability in demanding material handling environments. Featuring a robust galvanized finish, it offers superior protection against corrosion, making it an ideal choice for warehouses and industrial facilities facing moisture or harsh conditions. The design prioritizes operator comfort and operational efficiency through an ergonomic handle and a smooth, reliable hydraulic lifting system.

Key Features

Compliance & Benefits	No Anti-Dumping Duty, Galvanized Finish, Corrosion Resistant, Ergonomic Design
Manufacturing Origin	Vietnam

Operational Details

Ideal Applications

- Warehouses
- Factories
- Distribution Centers

Lifting System	Reliable Hydraulic System
