

Galvanized Steel Fence Corner Bracket

This galvanized steel corner bracket is designed for securely connecting fencing sections at a 90-degree angle. Constructed from durable steel with a corrosion-resistant galvanized finish, it provides long-lasting performance in outdoor environments.

Product Overview

Professional Fencing Solution

This galvanized steel corner bracket is engineered for securely connecting fencing sections at a precise 90-degree angle. Built for durability, the corrosion-resistant galvanized finish ensures long-lasting performance in demanding outdoor environments. Its robust design enhances the structural integrity of your fence, making it an ideal choice for chain-link, wood, and metal fencing applications.

Technical Specifications

Finish

Corrosion-resistant • Galvanized

Material

Galvanized Steel

Connection Angle

90 degrees

Installation & Compatibility

Installation Features

- Pre-drilled holes for easy mounting
- Fasteners included for assembly

Compatible Fence Types

Chain-link, Wood, Metal
