

# Galvanized Steel Roll-Up Door Forming Machine

This roll forming machine is designed for manufacturing roll-up doors from galvanized steel strips. It features a series of forming stations with precision rollers to gradually shape the metal into the desired profile.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Roll-Up Door Forming Solution

This industrial-grade roll forming machine is engineered for the efficient production of galvanized steel roll-up doors. Designed for stability and precision, the system features automated controls for consistent output, making it an ideal choice for manufacturing facilities, warehouses, and commercial shops. Every machine undergoes rigorous pre-shipment debugging to ensure seamless operation upon delivery.

## Technical Process

### Processing Flow

- Decoiling
- Loading
- Molding
- Cutting
- Off-discharging

## Certifications & Standards

### Certifications

CE • ISO • Bureau Veritas • TÜV Rheinland • SGS

## Service & Support

### After-Sales Support

Service Category	Details
Technical Support	Lifetime coverage
Replacement Parts	Free for non-artificial damage
On-site Technician	Available for international deployment

### Technician Service Fee

**150 USD**

Daily Rate

## Shipping & Logistics

Production Lead Time	30 days
