

Galvanized Steel Strip - Corrosion Resistant, Precision Cut

This galvanized steel strip is designed for applications requiring corrosion resistance and durability. The strip is precisely cut and coiled for efficient handling and processing.

Product Overview

Premium Galvanized Steel Strip

This high-quality galvanized steel strip is engineered for superior corrosion resistance and durability, making it an ideal choice for demanding industrial applications. With precision-cut dimensions and a protective zinc coating, it ensures consistent performance in environments where reliability is paramount. It is widely utilized in construction and manufacturing sectors, specifically for light keel roll forming, roller shutter doors, and purlin roll forming.

Technical Specifications

Thickness Range	0.13 mm
Width Range	50-600 mm
Zinc Coating Weight	40-275 g/i

Standards & Compliance

Available Steel Grades

- SGCC
- CGCC
- SGCD
- SPCC
- DX51D
- DX52D
- DX53D

International Standards	AISI, ASTM, BS, DIN, GB, JIS
-------------------------	------------------------------

Application Areas

Common Industrial Applications

Light Keel Roll Forming • Roller Shutter Doors • Purlin Roll Forming • Construction • Manufacturing
