Product Overview

Immersive Gaming Audio

This gaming headset is engineered for total immersion, featuring 7.1 virtual surround sound capabilities on PC platforms and high-fidelity stereo audio for console and mobile gaming. Designed with comfort in mind, it includes soft-cushioned synthetic leather ear cups and an adjustable microphone boom, ensuring long-lasting wear during extended gaming sessions. With multi-platform compatibility and convenient on-ear controls, it provides a seamless and responsive audio experience for professional and casual gamers alike.
