

Garage Storage System with Cabinets and Wall Organizers

This garage storage system features a combination of cabinets and wall-mounted organizers. The system includes base cabinets with doors and drawers, a tall cabinet, and various wall-mounted storage solutions like pouches and hooks.

Product Overview

Professional Garage Storage Solution

The TY-078 Garage Storage System is designed to provide a comprehensive, modular approach to workshop and garage organization. Combining heavy-duty base cabinets, a full-height tall cabinet, and integrated wall-mounted organizers, this system maximizes space utilization. Its professional aesthetic features a durable dark gray frame with light gray accents, making it suitable for both commercial garages and high-end residential workspaces.
