

Garbage Bin Mould

Moulds designed for efficient production of plastic garbage bins. These moulds are engineered for high-quality manufacturing.

Product Overview

High-Efficiency Garbage Bin Moulding Solutions

These precision-engineered moulds are designed for the high-volume production of daily-use garbage bins. Built with durability and efficiency in mind, they ensure consistent quality and dimensional accuracy for every unit produced. Ideal for manufacturers looking to optimize their plastic injection molding processes for waste management products.

Technical Specifications

Available Mould Designs

- Daily Use Garbage Bin Mould (Model 4)
- Dust Bin Mould (Model 303)
- Dust Bin Mould (Model 301)
- Dust Bin Mould (Model 300)

Key Dimensions

48 cm

Dimension Ref 1

61 cm

Dimension Ref 2

60 cm

Dimension Ref 3

Manufacturing Compatibility

Primary Application

Plastic Injection Molding, Waste Management, Daily Use Products
