

Gas Power Generator

This gas power generator provides a reliable source of electrical energy. It is suitable for industrial facilities needing continuous or backup power.

Overview

High-Efficiency Gas Power Generation

This industrial-grade gas power generator is engineered for reliable, continuous energy production in demanding environments. It utilizes advanced combustion technology to optimize fuel consumption while maintaining stable power output. Designed for scalability and durability, it serves as a robust solution for large-scale infrastructure and industrial power requirements.

Performance

Rated Power Output

500 kW Continuous Output	550 kW Peak Output
------------------------------------	------------------------------

Compatible Fuel Types

Natural Gas, Biogas, LPG

Technical Specifications

Core Technical Data

Parameter	Specification
Voltage	400/230V
Frequency	50/60Hz
Cooling System	Water Cooled
Control Panel	Digital Auto-Start

Compliance

Standards & Certifications

CE • ISO 9001 • ISO 14001
