

Gas Powered Weed Burner Wand

This gas weed burner effectively eliminates weeds using a controlled flame. It features an adjustable flame control, extended wand, and comfortable handle, and is designed for outdoor use with propane or butane gas cylinders (not included).

Product Overview

Efficient Weed Control Solution

This gas-powered weed burner wand offers a highly effective, chemical-free method for eliminating weeds in gardens, driveways, and outdoor spaces. Constructed with a chrome-plated, corrosion-resistant finish, it ensures durability and longevity in various environmental conditions. The extended wand design promotes ergonomic use, allowing for comfortable operation without the need for bending, while the adjustable flame control provides precise application.

Technical Specifications

Nominal Heat Input

4.2 kW

Heat Input

Ignition System

Piezo Ignition

Operating Temperature

1300 °C

Fuel Consumption

305.4 g/h

Injector Size

0.49mm

Dimensions & Compatibility

Burner Dimensions

80cm x 9cm

Compatible Cartridge Size

21cm height, 6.7cm diameter

Burning Time

1.5 - 3 hours (depending on gas setting)

Construction & Features

Material Finish

Chrome-plated, Corrosion-resistant
