

Gas Spring Single Monitor Desk Mount

This desk mount features a gas spring arm, offering smooth monitor adjustments for optimal viewing angles. It improves posture and allows easy screen sharing with its swivel function.

Product Overview

Ergonomic Gas Spring Design

This gas spring monitor mount is engineered to enhance office ergonomics by providing smooth, effortless height and angle adjustments. Supporting single monitors from 12 to 32 inches, it helps users optimize their viewing position to reduce neck and back strain. The mount clears valuable desktop space while offering 360-degree rotation and 180-degree tilt for versatile screen sharing and collaboration.
