Overview

CKD/SKD Gas Water Heater Components

These gas water heater parts are available in CKD (Completely Knocked Down) and SKD (Semi-Knocked Down) formats, designed for efficient manufacturing and assembly. The collection includes essential components such as heat exchangers, burner assemblies, and control valves. This modular system allows for flexible configuration and maintenance, ensuring robust performance for gas-fired water heating applications.

Technical Specifications

Base Panel Colors

White • Grey • Black

Available Capacities

5L, 6L, 7L, 8L, 10L, 12L, 14L, 16L

Base Panel Thickness

0.6 mm

Core Components

Heat Exchanger Weight Range

0.8 KG

Minimum

3.2 KG

Maximum

Valve Options

- Small Valve
- Middle Valve
- Big Valve
- Zero Water Valve

Burner Configuration

3 to 4 Rows

Accessories

Knob Material	Bakelite or Plastic
Safety Features	Yes
Battery Case Material	White plastic
