Product Overview

High-Efficiency Gas Water Heater

This advanced gas water heater is engineered for consistent performance and user safety. It features intelligent wind resistance technology and a powerful engine to ensure reliable operation even in challenging conditions. With a built-in silver ion bacteriostat system, it prioritizes water hygiene, providing a healthy and comfortable supply for residential use.

Technical Specifications

Model Number	JSQ25-13BCK2
Rated Capacity	13 L

Key Features

Core Technologies	Intelligent Wind Resistance, Silver Ion Bacteriostat, Digital Temperature Control
-------------------	---

Performance Metrics

Operational Status

31 °C Current Temperature	378 L Total Volume Processed
-------------------------------------	--

Design & Interface

Control Panel Indicators

- Power
- Child Lock
- Flame Status
- Fan Status
- Digital Temperature Display
