

Gasoline Engine High-Pressure Sprayer

This high-pressure sprayer unit features a gasoline engine and pump assembly. It is designed for agricultural and industrial applications requiring efficient spraying of liquids.

Product Overview

Professional Gasoline High-Pressure Sprayer

This high-pressure gasoline engine sprayer is engineered for demanding agricultural and industrial applications. It features a reliable engine and a high-performance pump assembly capable of delivering consistent pressure and flow. Designed for portability and durability, this unit provides the necessary power to handle wide-ranging spraying tasks with precision.

Performance Specifications

Key Performance Indicators

2.1 kW

Max Output

45 Kg/cm²

Max Pressure

15 L/min

Max Flow Capacity

Operational Range

- 100
- 5
- 10

Technical Details

Dimensions & Weight

Metric	Value
Length	660 mm
Width	305 mm
Height	365 mm
Net Weight	18 Kg

Engine Configuration	1E43F/152F
